Life through a lens: Dylan's photos

Du liest einen Text über Dylan, einen jungen Fotografen.

- 1 Lies den ersten Teil des Textes und beantworte die Fragen a und b.

Dylan, 16, lives in Dartford, just outside London. He's taken about 15,000 photos since he became interested in photography when he was 10. He's taken a lot of colour photographs with a digital camera. But he prefers taking and developing his own black-and-white photos because they show more contrast. Some of his favourites are of friends, family and neighbours.

developing = entwickeln

- a How long has Dylan been a fan of photography? For years.

- b Dylan also uses a manual camera, not only a digital camera. Why?

- Because he is 16 years old.
 Because he has taken a lot of photos with his digital camera.
 Because he likes developing his own photos.
 Because he likes taking pictures of his friends.

- 2 Verbinde die Satzanfänge c–e mit den richtigen Satzenden 1–3 und f–h mit den richtigen Satzenden 4–6.

- 3 Lies nun den zweiten Teil des Textes und kreuze für die Aussagen i–o an, ob sie richtig (T = true) oder falsch (F = false) sind oder ob nichts dazu gesagt wird (N = not stated).

I started developing photos in my school's darkroom last year. First, I wash and cut the negatives. Then I decide how much contrast I want. It takes about two days to develop a photo. I have to wait one night for the negative to dry and another for the photo to dry.

When I leave school, I want to study photography in London like my father. I'd like to specialize in photographing people and have big exhibitions. I know that being a professional photographer is really hard, but I'd like to try.
